## FISCAL ANALYSIS

### ASSUMPTION

Officials at the **Office of the Secretary of State (SOS)** assume this proposal will require the SOS to establish an electronic system through which a "covered voter" can apply for, receive and submit voter registration materials, military-overseas ballots, federal postcard applications, military-overseas ballot applications and other approved electronic registration applications. The system must be capable of allowing a "covered voter" to register to vote and to vote by absentee ballot.

This proposal would require the SOS to develop an electronic free-access system in coordination with the local election authorities of the state that would allow a "covered voter" to track their federal postcard application or other registration application, as well as the "covered voter's" military-overseas ballot status to confirm that each has been received and accepted. This proposal would allow for a covered voter to use an electronic signature and would require significant changes to MCVR to allow an electronic signature

This proposal will require the SOS to make significant computer programming changes to MCVR and other systems which is estimated to cost \$246,800.

Officials at the **Platte County Board of Election Commission** assume that an additional cost of \$4,741 per election would be incurred due to this proposal. The majority of costs would be personnel to handle the precessing of the ballots.

Officials at the **Kansas City Board of Election Commission** assume costs of \$5,000 per election which would include temporary help and printing expenses.

**Oversight** assumes that the local election authorities will be able to absorb any fiscal impact from this proposal with existing resources.

Officials at the following board of election commissions: St. Louis City Board of Election Commission, Clay County Board of Election Commission, Jackson County Board of Election Commission and St. Louis County Board of Election Commission did not respond to **Oversight's** request for fiscal impact.

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

FISCAL DESCRIPTION

Currently, the Secretary of State is charged with establishing procedures for absent uniformed services voters and overseas voters to request, receive, and send voter registration applications and request and receive absentee ballots by mail or electronically. This act repeals provisions related to absent uniformed services voters and overseas voters and institutes the Uniformed Military Voters Act to apply to all federal elections, statewide and state legislative elections and local elections where absentee ballots are authorized.

The Secretary of State is required to establish an electronic transmission system through which a covered voter may apply and receive voter registration materials and military-overseas ballots.

JH:LR:OD

FISCAL DESCRIPTION (continued)

The act allows covered voters to use a federal postcard application or the declaration accompanying a federal write-in absentee ballot to apply to register to vote. Such voters who are registered to vote in Missouri may apply for a military-overseas ballot and those who are not registered may use a federal postcard application to simultaneously register and apply for a military-overseas ballot.

Covered voters who are eligible to register and vote but who are not registered may vote for President, Vice President, and United States Senator and Representative by absentee ballot, federal write-in absentee ballot or at the person's polling place after submitting an affidavit that the person is qualified to vote.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
